Re: WT Docket No. 01-309
HAC Digital Wireless Telephones

Fourth Semi-Annual Report

Dear Ms. Dortch:

Radiofone PCS, L.L.C. ("Radiofone"), is the licensee of Station KNLH426 (D-Block – Hattiesburg, Mississippi BTA) in the broadband Personal Communications Service. This report is submitted pursuant to the requirements of Paragraph Nos. 89 – 91 of the Commission's *Report and Order* (WT Docket No. 01-309), FCC 03-168, released August 14, 2003 ("*R&O*").

By way of background, Radiofone is a small, Tier III Commercial Mobile Radio Service licensee, as defined in the Commission's E-911 *Order to Stay*, FCC 02-210, released July 26, 2002. We have configured our D-Block broadband PCS system to provide data-only service using an Airspan AS4000 wireless DSL platform. Because Radiofone offers two or fewer digital wireless handsets in the U.S., we qualify for the *de minimis* exception to the Hearing Aid Compatibility ("HAC") rules, described in Rule Section 20.19 (e)(1).

Should you have any questions, please contact John Prendergast or Cary Mitchell of the law firm of Blooston, Mordkofsky, Dickens, Duffy & Prendergast. Either may be reached by calling (202) 659-0830.

Respectfully submitted,

RADIOFONE PCS, L.L.C.

Don Garyey
